# India readies interim AI crash probe report

ABHIJITH GANAPAVARAM & ALLISON LAMPERT  
New Delhi/Montreal, May 26

**INDIAN OFFICIALS INVESTIGATING** last year's deadly Air India crash are preparing an interim report rather than a final one ahead of the anniversary of the Boeing 787 accident that killed 260 people, said a person with direct knowledge of the matter.

The interim report from India's Aircraft Accident Investigation Bureau (AAIB) will be "more comprehensive" than the preliminary report put out last July and will examine possible primary causes and other contributing factors, the person said.

The 15-page preliminary report into the aviation industry's deadliest disaster in a decade showed the Dreamliner's engine fuel switches flipped almost simultaneously and starved the engines of fuel shortly after the flight from Ahmedabad to London took off on June 12, 2025.

A cockpit recording of dialogue between the two pilots supported the view that the captain cut the flow of fuel to the plane's engines, according to US officials' early assessment reported by Reuters last year. The AAIB said at the time it was "too early to reach any definite conclusions".

By releasing an interim report, Indian authorities will not be required to share the findings ahead of time with the US National Transportation Safety Board (NTSB), which is participating in the investigation because the air-

A 15-page report said that Dreamliner fuel switches flipped, starving engines of fuel shortly after the Ahmedabad-London flight took off on June 12, 2025

craft was designed and manufactured in the United States. The NTSB would be allowed to comment on a final report, which could also provide more closure for the crash victims' family members.

The final report will not be ready by the crash anniversary because "it is a very complex investigation and is taking time," said the person, adding the interim report still needed to be submitted to government authorities and the timing of a final report remained unclear.

A second source with knowledge of the matter also said investigators were still working on the probe and needed more time. Both sources spoke on condition of anonymity as the internal workings of the investigation are private.

Under international rules, a final report is due within a year of an accident but sometimes

investigations take longer, so if that is not completed, an interim statement should be issued on each anniversary.

The AAIB, India's civil aviation ministry and Air India did not respond to emails seeking comment. AAIB chief GVG Yugandhar also did not respond to calls and messages seeking comment.

The UN aviation agency, the International Civil Aviation Organization (ICAO), sets out a consultation process with participating states for draft final reports, with a usual 30-day comment period extendable to 60 days. The same process does not apply to interim statements.

Montreal-based ICAO and the US NTSB, which is supporting the probe, declined to comment. Boeing, which is a technical adviser to the investigation, referred Reuters to the AAIB for comment. —REUTERS

# Jio nears Airtel addition pace: Trai

URVI MALVANIA  
Mumbai, May 26

**BHARTI AIRTEL MAINTAINED** its lead in subscriber additions in April 2026, adding 3.14 million wireless users, while market leader Reliance Jio significantly closed the gap in net additions at 2.94 million, according to data released by the Telecom Regulatory Authority of India (Trai). In March, the difference in net additions between the two was nearly 2 million.

For the third consecutive month, Vodafone Idea added subscribers, though the pace slowed to 53,257 additions (March: 103,000) to its overall subscriber base. However, much of this acceleration in subscriber addition continues to come from the telco's performance in the 2M or enterprise connections segment, a significantly lower average revenue per user (Arpu) business.

Ex-M2M, Airtel added 1.12 million users in April, behind Jio's 1.89 million additions. Vodafone Idea lost 0.41 million users, indicating an acceleration in churn from 0.16 million in March.

Overall, India's telecom subscriber base rose to 1.337 billion as compared to 1.331 billion in March, with net additions of 6.95 million users, according to data released by the telecom regulator. Both urban and rural markets registered net additions in the month.
